## Lung Diagnostic Assessment Program (LDAP)

The Emergency Department has referred you to LDAP clinic. This is usually because you have a finding on your Chest X-ray or CAT scan. The LDAP program specializes in the diagnosis of certain lung abnormalities or masses. The clinic will contact you. We still recommend that you call the clinic in 2-3 business days if you do not hear from them.

### **To contact the clinic**

Call 905-378-4647, ext. 49138

If before your appointment you think you are getting worse, please return to the Emergency Department for reassessment. Make sure you have discussed this and any other questions you have with the ER doctor or Nurse before you leave the ED.

Your family doctor is the best way to access medical care and acts as the central person in your overall healthcare. If you do not have a family doctor, we strongly advise you to get one. You can find help at [www.niagararegion.ca/health/find-a-doctor.aspx](http://www.niagararegion.ca/health/find-a-doctor.aspx) or by calling Healthcare Connect Ontario at 1-800-445- 1822. The city of St Catharines provides similar information on their website [www.stcatharines.ca](http://www.stcatharines.ca) or by calling 905.359.6043. The Niagara Region provides the same service by calling 211.

**PLEASE GIVE TO THE PATIENT PRIOR TO DISCHARGE FROM ED**
