

PREDD (Pediatric Rapid ED Diversion) Pilot

At Niagara Health, we are trying to help children see a doctor faster. A doctor will see some children in the children's area on the 4th floor.

Please take your child there. You do NOT need to register again.

To get to the children's area on the 4th floor:

1. Take the Emergency Department hallway to the hospital's main entrance. You will walk with big windows on your left and will go through double doors.
2. At the main entrance, turn right and go to the main elevators. You will follow the line of blue tiles on the floor. You will pass Tim Hortons to your left.
3. Take any of the three main elevators to the 4th floor.
4. Get off the elevators and turn left.
5. You will go through the double doors with a sign saying '4B Children's Health'. Walk straight to the main nursing desk and tell a staff member that you are here to see the doctor.
6. If you need help, you can ask any staff member or call 905-378-4647 x43518.
