<input type="checkbox"/> M. Tsang 1200 Fourth Avenue 905-378-4647 x46761	<input type="checkbox"/> Other : _____		

What Will Happen Next?

**You will be notified of your appointment within a few business days. If you do not get a call, please call the office at the indicated phone number.**

Please make sure you confirm the address of the cardiologist's clinic as well as any special instruction when you get your appointment from the cardiologist's office. Remember that all Ontario physician office information is publicly available at the College of Physician and Surgeons of Ontario. The website is [www.CPSO.on.ca](http://www.CPSO.on.ca)

Returning to the ER?

If before your appointment you think you are getting worse, please return to the Emergency Department for reassessment. Important reasons to return to the ED or calling 911 can include worsening chest pain, palpitations, shortness of breath, or feeling unwell. Make sure you have discussed this and any other questions you have with the ER doctor or Nurse before you leave the ED.

After the visit

After the consultation in the clinic, the Cardiologist may want to schedule you to have other testing, for example, an exercise stress test, an echocardiography study or a Holter monitoring study. If earlier testing is required, you will be notified by the cardiologist's office.

Family Doctors

Your family doctor is the best way to access medical care and acts as the central person in your overall healthcare. If you do not have a family doctor, we strongly advise you to get one. You can find help at [www.niagaradocs.ca](http://www.niagaradocs.ca) or by calling **Healthcare Connect Ontario at 1-800-445- 1822**. The city of St Catharines provides similar information on their website [www.stcatharines.ca](http://www.stcatharines.ca) or by calling 905.359.6043.

Thank you

**PLEASE GIVE TO THE PATIENT BEFORE DISCHARGE FROM ED**
