The Emergency Department has made a referral for you to Doctors Massarella and St Amand. They specialize in transgender medicine. The Transgender Clinic is part of the Quest Community Health Center located at 145 Queenston St, in St Catharines. Please see the map below.

Quest staff will contact you within 2 weeks to set up an appointment. If you do not hear from them, for any reason, please call the office at 905-688-2558.

On the day of the appointment, make sure you bring your health card, all your medications, the name of your family doctor and any other relevant document that you might have. Also, consider bringing a support person to be with you during the appointment.

Seeing a specialist does not replaced the care you receive from your family doctor. He or she is the central person in your healthcare. Make sure you book a follow up appointment with your family doctor. If you do not have one, you can call **Healthcare Connect Ontario at 1-800-445-1822**. The city of St Catharines provides similar information on their website www.stcatharines.ca or by calling 905.359.6043. Walk in clinics do not fulfill the role played by your family doctor.

If before your appointment you think you are getting worse and require emergency care, please return to the Emergency Department for reassessment. Please call 911 if you think you are having a life-threatening emergency.
