## TO THE PATIENT:

The Emergency Department has made a referral for you to see Dr. Simon Kim. This is an outpatient referral. Dr. Kim is a specialist in Internal Medicine specializing in the investigation and treatment of adult patients with medical problems. His office is located at 589 Lake St., Unit 202, St Catharines. His Office will contact you for an appointment. On the day of your appointment, **please bring all your medications** and any other relevant information you might have, like names for other doctors taking care of you.

If you do not hear from Dr. Kim's office within 7 business days, please call his office at 905-937-4747. Please make sure you also book your appointment with your family doctor for your other ongoing care. Your family doctor remains at the center of your medical care and cannot be replaced by a specialist or the Emergency Department.

If you do not have a family doctor, we strongly advise you to get one. A family doctor is the best way to access medical care and acts as the central person in your overall healthcare. You can find help at [www.niagaradocs.ca](http://www.niagaradocs.ca). You can obtain the same information by calling 905-685-4225 x 3287. The city of St Catharines provides similar help on their website [www.stcatharines.ca](http://www.stcatharines.ca) or by calling 905.359.6043.

Please note that Dr. Kim's clinic is not affiliated with the Emergency Department. So, if you develop any worsening, concerning or changing symptoms, [e.g. acute chest pain, palpitations, shortness of breath, loss of consciousness, etc.] please either call 911 or proceed to the ED as your condition warrants. Please direct any questions you have to your nurse or doctor BEFORE leaving the department.

Please note that Dr. Kim's office charges a \$50 fee for missed or rescheduled appointments with less than a 24-hour notice.

Thank you.
